## HS 80

### Liquid & Gel Sanitizer

Ethanol antiseptic topical solution containing ethanol 80% (v/v). Studies show that hand sanitizers work well in clinical settings like hospitals, doctor's offices, and clinics where hands come into contact with germs but generally are not heavily soiled or greasy. Sanitizers are safe when used as directed, but they can cause alcohol poisoning if a person swallows more than a couple of mouthfuls.

## HP

### Heavy Concentrate Multi-Surface Cleaner

Hydrogen Peroxide 25% concentrated multi-surface cleaner, disinfectant. Can be used in its present state and diluted down to a desirable level. To be used in the initial phase of cleaning to eradicate any and all microorganisms. It has immediate kill on viruses and biological activity, please use proper PPE.

## MR

### Multi-Surface Maintenance Cleaner

Quant amine-chloride user-friendly... spray and it will eradicate viruses. Used in disinfecting all surfaces, in a ready-to-use state, can be applied via spray bottle, fogged in areas that are not reachable via conventional equipment. Highly effective in eradicating 99% of biological activities. Used aggressively in mold remediation and water damage.

## HPC6

### Highly Concentrated Bleach

Concentrated sodium hypochlorite (Bleach)  
Can be used in its present state and diluted down to a desirable level. Used extensive in second phase cleaning after either MR and or HP. Aggressive at killing viruses and other biological matter.

## SKR 5

### Heavy Concentration Industrial Cleaner, Degreaser and Disinfectant

Extremely caustic cleaner for floors, surfaces, machinery, walls, and anything you can think of that would need cleaned. Originally designed to clean and eliminate bacteria and contaminate in CNC machines, this product kills biological matter when used in elevated concentration levels, which can be diluted in its proper form to be extremely effective against biological microorganisms.

## ULTRAKLEAN SK 200 M

### Industrial Cleaner, Degreaser and Disinfectant

Concentrated maintenance cleaner for floors, surfaces, machinery, walls, and anything you can think of needing to be cleaned. Non-aggressive on hands and equipment. Use straight or in diluted forms with water as a carrier. Encapsulates and removes particulates. Non-flammable, non-toxic, high solvency characteristics; this product kills biological matter when used in elevated concentration levels, which can be diluted in its proper form to be extremely effective against biological microorganisms.
